## High-Voltage Resistors Wanted Poster and Presentation

I'm pleased to announce the publication of a new entry in Vishay's "Wanted Poster" series, covering Vishay Dale and Vishay Techno "High-Voltage SMD and Through-hole Resistors." The poster and a support document are included in the following pages.

The support document is a 16-page training guide that summarizes the various Vishay Dale and Vishay Techno high-voltage families, including the SMD product families CRHV, CDHV and CRMV; and the through-hole product families RNX, ROX, FHV, TR, TD, MVW, HVW and HVX.

Please use these documents in your efforts to support current customers, as well as locating and securing additional business in the high-voltage resistor product area.

If you have any questions or concerns, please contact us.

# WANTED

## High Voltage SMD and Thru-hole Resistors

**CRHV, CDHV,  
CRMV**

**RNX, ROX, FHV,  
TR, MVW, HVW,  
HVX**

### COMMON HIDEOUTS

Instrumentation/meters, High-end Circuit Breakers,  
High Voltage systems, Medical Instrumentation,  
Medical Implantables, Laboratory test equipment

### ALIASES

TT Group (Welwyn): HVC, HVP, WHVL, 4500 or F series  
Ohmcraft: HVC series  
RARA: HVP, HVR series
